

ZACHARY SCOTT D. RUIZ

Taal, Batangas, 4210, Philippines • zacharyscottruiz@gmail.com • (+63) 945 463 2859
Portfolio: zacharyscott.vercel.app • GitHub: github.com/Caelusary

EDUCATION

De La Salle Lipa <i>Bachelor of Science in Computer Science</i>	Lipa City, Batangas 2024 - Present
Makati High School <i>Science, Technology, Engineering, and Mathematics (STEM) Strand</i>	2022 - 2024

EXPERIENCE

Junior Philippine Computer Society <i>Member</i>	2024 - Present
Attended Explore Your Electives (EYE), a seminar on the Internet of Things (IoT), beyond coursework.	

CERTIFICATES & AWARDS

Certificate of Achievement — Discrete Structures · Junior Philippine Computer Society	May 22, 2025
Certificate of Achievement — Computer Programming I · Junior Philippine Computer Society	May 22, 2025
Certificate of Achievement — Introduction to Computing · Junior Philippine Computer Society	May 22, 2025
Certification — Basics of SQL Statements and Indexes · UniAthena	May 31, 2026
Certification — Basics of Python · UniAthena	May 31, 2026

SKILLS & INTERESTS

Technical Skills: Java, Python, JavaScript, TypeScript, React, Next.js, Tailwind CSS, SQL, MySQL, PostgreSQL (via Supabase), UI/UX Design

Soft Skills: Communication, Collaboration, Project Ideation, Critical Thinking, Time Management

Tools & Technologies: VS Code, IntelliJ IDEA, MySQL Workbench, Supabase, Git/GitHub, Vercel, Vite, Vitest

PROJECTS

Ambag (Next.js, React, TypeScript, Tailwind CSS)

- Building a mobile-first group-project tracker where a task only counts as done once its proof is accepted.
- Designed an append-only activity log, a per-member contribution ledger, and revocable share links.

Shelf Help (React, React Router, Vite)

- Built a book search app on the Open Library API with keyboard-navigable autocomplete, deployed on Vercel.
- Tested with Vitest, React Testing Library, and jest-axe accessibility checks.

Budgy (React, React Router, Vite)

- Built a budget tracker with category limits, recurring entries, and a savings goal, stored in localStorage.

Twogether (HTML, CSS, JavaScript, Supabase)

- Built a full-stack couples app with mood check-ins and a shared gallery, secured by Supabase row-level security.

Weather Dashboard (HTML, CSS, JavaScript)

- Built a weather app on the OpenWeatherMap API with current conditions, a 5-day forecast, and °C/°F toggling.
- Built an interactive Leaflet map with temperature-coded pins for popular and recently searched cities.

Trip Planner (Next.js, TypeScript, Tailwind CSS, Supabase)

- Built a full-stack trip planner with auth, multi-city stops, and per-trip weather forecasts, deployed on Vercel.
- Hardened it through security, performance, and accessibility passes, including ownership checks and CI.
